Unit Tests

Testing Site Navigation

Test: Go to the site slackers.me

Expected Result: The home page of the forum is displayed.

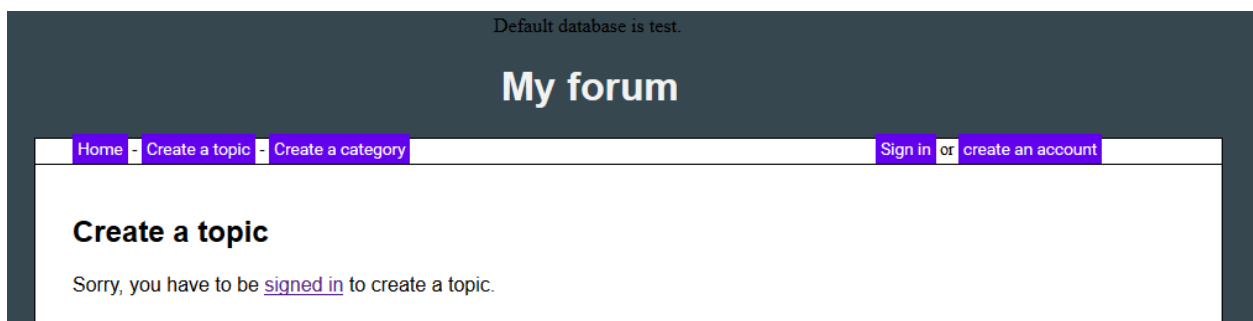

Passed?: Yes.

Test: Try to create a topic without logging in.

Expected Result: The site should say that you must be logged in before creating a topic.

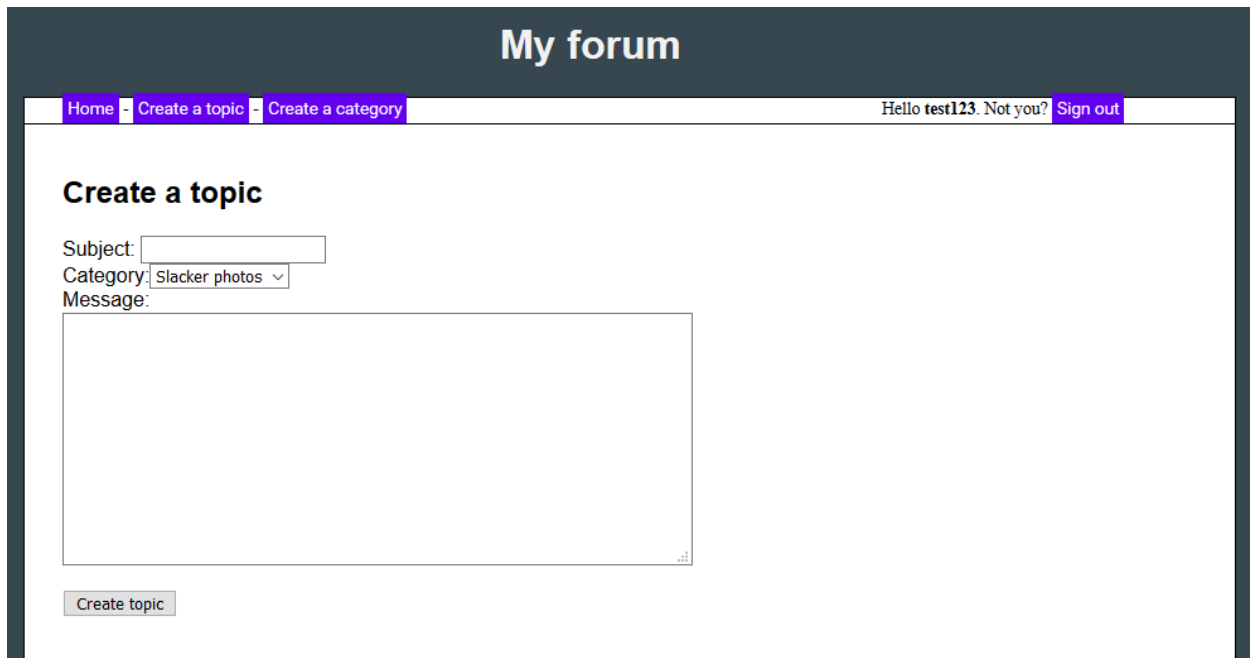

Passed?: Yes.

Test: Go to create a topic page while logged in.

Expected Result: The page to create a topic should work.

Passed?: Yes.

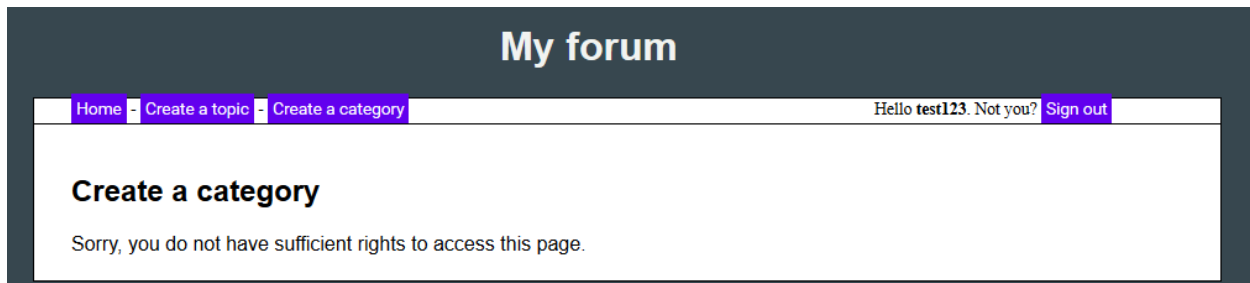

The screenshot shows a web application titled "My forum". At the top, there is a navigation bar with links: "Home", "Create a topic", and "Create a category". On the right side of the navigation bar, it says "Hello test123. Not you?" and a "Sign out" link. The main content area is titled "Create a topic". It contains a form with the following fields: "Subject:" followed by a text input box, "Category:" followed by a dropdown menu showing "Slacker photos" with a downward arrow, and "Message:" followed by a large text area. At the bottom left of the form, there is a "Create topic" button.

Test: Try to create a category from a non-admin account.

Expected Result: The site should say you don't have sufficient privileges.

Passed?: Yes.

The screenshot shows the same "My forum" application, but the main content area is titled "Create a category". Below the title, there is a message: "Sorry, you do not have sufficient rights to access this page." The navigation bar and user information are the same as in the previous screenshot.

Testing log in and Creating an Account

Test: Log in with an invalid username (fake123) and password (fake123)

Expected Result: The user is not logged in and the site says the username and/or password is incorrect.

Passed?: Yes.

Default database is test.
